WORK EXPERIENCE

Cloud Engineer / Capgemini Polska, Kraków

Nov 2018 - Present

- As part of the Office 365 FastTrack Team I am responsible for the preparation and migration of clients' data to the Microsoft cloud. From the onboarding process to the actual data migration and postmigration reporting.

IT Operations Analyst (2nd level) / Stanley Black & Decker, Warsaw

Jun 2017 – Oct 2017

- Part of the ITSM Change Management team and responsible for the later deployment and implementation of the technologies VMWARE AirWatch support for Android and Apple devices, Avecto Access Management and Zscaler Cloud Security.
- Responsible for administering PowerShell scripting for AD User Management and Exchange Online.

IT Operations Analyst / Stanley Black & Decker, Warsaw

Nov 2016 – Jun 2017

- Responsible for providing remote and onsite IT support for our internal employees.
- Managing over 40.000 Network and Non-Standard Accounts in Active Directory, SAP and over 100 different applications.

IT Specialist / HCL Poland, Kraków

Oct 2013 – Oct 2016

- Responsible for diagnosing and resolving end-user network, hardware and software problems, MS Office, Internet, dial-in, TCP/IP and local-area network access problems via telephone / email including remote access.
- Software deployment. Installing applications and drivers, coordinating all hardware and software upgrades and performing backups.

Finance and Accounting Process Analyst / Capgemini Polska, Kraków

Jul 2012 – Sep 2013

- Operating SAP I was responsible for performing the day to day processing of financial transactions to ensure the correct and timely processing of financial data.
